

Are You an Informed Healthcare Consumer?

Memorial Medical Center's presentations educate healthcare consumers on prevention of illness & disease and how to decrease healthcare expenditures.

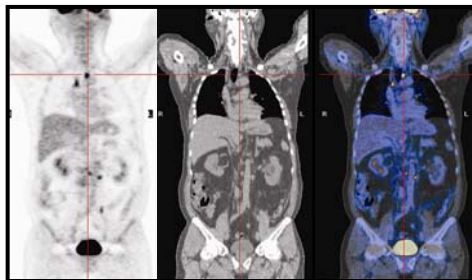

Presentations held at Memorial Medical Center - Neillsville, Manz Conference Room.
5:30-6:30 pm. Refreshments served. Free & open to the public.

Wednesday, August 19th

Paul Harmer, Radiology Manager
& Radiology Staff

Radiology Services Presentation & Technology Tour

PET/CT is one technology MMC uses to detect cancer. It produces a 3-D view of an organ, offering greater precision.

PET detects changes in cells.

CT shows anatomy.

PET/CT "fuses" both images.

- What radiology services does MMC offer? (MRI, CT, PET/CT, ultrasound, mammography, C-Arm, etc.)
- Can patients take images from one clinic to another, avoiding costly duplication of services?
- What qualifications & specialties do MMC's Radiology Technologists possess?
- What advances can MMC patients anticipate?
