# Home Health Care

## *Memorial Medical Center's Home Health Agency*

Memorial Medical Center's Home Health Agency provides services to people of all ages who qualify for this type of care. The agency is licensed by the state of Wisconsin and is certified for services through Medicare and Medicaid as well as private insurances and private pay reimbursements. Our Home Health Care Agency has been providing care since 1985.

Memorial Medical Center's Home Health Agency serves portions of Clark Jackson, Wood and Eau Claire Counties.

### *Home Health's Purpose*

The purpose of our Home Health Agency is:

 To provide short-term services to those recovering from an illness or accident.

 To allow people to remain living in their own home.

 To assist in helping patients return home from the hospital or nursing home.

### *How Do I Acquire Services?*

 Contact your physician. The physician must write orders for the services and treatment you will require at home.

 If you do not have a regular physician, contact our Agency and the Director will assist you.

### *What are the costs for services?*

 Most, if not all, charges are covered by most private health care insurances as well as Medicare and Medicaid.

 Arrangements can also be made for private payment. Please call our office for a fee schedule.

## *What Services are Available?*

### SKILLED NURSING CARE

Professional nurses, licensed by the State of Wisconsin, provide care and also teach, demonstrate and supervise care given by home health aides, family members, and other caregivers.

### HOME HEALTH AIDE

The certified Home Health Aide performs personal tasks such as bathing, dressing, grooming, exercises, ambulation, light housekeeping, and meal preparation.

### MEDICAL SOCIAL WORKERS

Social Workers provide counseling to clients and families, and assist with arranging other needed community services.

Their goal is to help the client live independently in their own home.
